

# INTRODUCING MEDICLUB USA

## Yes we are aware of:-

- Rising unaffordable medical insurance premiums.
- Small businesses suffering high premiums.
- Individuals struggling to meet financial liabilities
- Several businesses have moved to low cost high deductible plans.
- Unilateral price fixing of your medical insurance.

**MEDICLUB** is not insurance, but a simple concept for patients and medical providers joining hands and coming together to help reduce healthcare burden of the members.

We invite you to join in to help yourself, your employees or friends and join in the new and efficient way to take care of day to day, common, non-emergent, ambulatory health care needs.

Any one is eligible to join the **MEDICLUB**, people who have..

- no insurance
- high, several thousand dollars deductible
- small businesses with tight budget

For a small yearly membership fee of \$750.00, the **MEDICLUB** CARD can be used in any participating member clinics.

The members' benefits will include needed visits to any one of the assigned clinics, from a group of participating member clinics, with nominal copay at each visit.

Primary care, acute care is available and specialized care will be available at discounted rates, and certain in-house testing is included with this **MEDICLUB** membership.

The **MEDICLUB** member benefits do not include prescription medications, ER visits or hospital admissions, or any purchased expendables in the clinic.

The membership includes the office visits and several routine in-house tests. Ancillary services and specialized tests may be available at discounted rates where available. Blood Draws can be done at the Clinic, and sent to the laboratory; the members will be billed by the laboratory separately, and will be responsible for those expenses.

This is an alternative to high cost plans and much more affordable method of getting medical care and treatment, especially when combined with \$4 prescriptions offered by most leading pharmacies.

Instead of waiting to meet the high deductible, or, not being able to afford medical insurance at all, take this opportunity to get the most needed and timely medical care. Become a member of **MEDICLUB** today. Get involved and help someone join the club and GIFT a membership for the one you care.

- ❖ You don't have medical insurance?
- ❖ Can't afford health insurance?
- ❖ Have a very high deductible?
- ❖ Need medical help and can't afford to pay high cost?
- ❖ Scared of cost of clinic visit?
- ❖ Small business, unable to afford insurance?
- ❖ The 15% to 20% increase in premium is not affordable?

**If you answered yes to any of the above questions then  
MEDICLUB is right for you.**
